

## Vision Statement

Alligator Energy is a responsible and progressive uranium and energy metals explorer and emerging producer

### **'We aim to look at our business activities through the eyes of our stakeholders'**

- From a shareholder viewpoint we aim to add value in all of our decision-making.
- From an employee perspective we wish to provide an engaging, challenging, enjoyable and respectful workplace.
- From a landowner viewpoint we respect your rights and seek to collaborate for our mutual benefit.
- From a traditional owner viewpoint, we respect your cultural heritage and your country, and wish to create mutual opportunities.
- And from an environmental viewpoint we aim for a low impact through innovation and latest technology, and responsible land management techniques.

Uranium and energy metals are valuable and necessary commodities for the advanced, zero impact, renewing, recycling, clean energy operating systems and practices of our global future.

We believe that Uranium has a role in providing a positive impact for global communities in the production of low carbon emission base load power as an Industry of the future.

Our aim is to discover, source and economically extract these needed commodities with an innovative approach, with either zero or minimal impact, and with positive value and experience for our stakeholders and communities.

**Values:**

**Our business activities and operations are underpinned by the following core values:**

- To provide a safe work environment for our people and contractors
- To act honestly and openly with all stakeholders;
- To respect local communities, their cultural heritage and the environment that they live in;
- To empower and support one another; and
- To focus our everyday activities on simple and innovative solutions
